

# **LET'S GO TO GLASGOW AND DEMAND ACTION on CLIMATE NOW**

Wildfires, soaring temperatures, drought, floods, melting polar ice caps, destruction of biodiversity. Climate emergency is here and scientists are clear that only rapid and drastic reductions in greenhouse gas emissions can stop climate breakdown.

The governments of the world are coming to Glasgow this November for the COP26 climate talks. So far they have done nothing but set 'targets' which means nothing without action to achieve them! We need to send them a message: ***Act now to stop climate disaster!***
